

eLife

Knowledge is just a click away

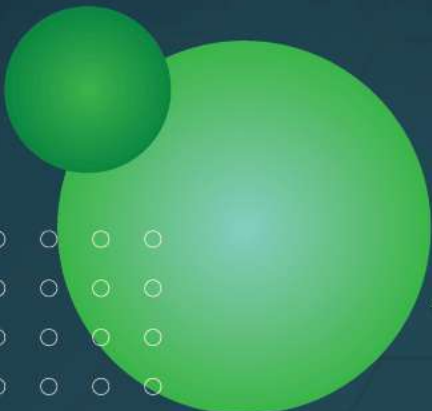

What is e-Life?

- + A smart e-learning platform empowering digital transformation for individuals and organizations across industries.
- + Seamless journey from choosing a course ☒ learning at own pace ☒ earning a certificate.
- + Streamlines operations through intelligent automation and real-time data access.
- + Enhances decision-making with integrated analytics and customizable dashboards.

E-life unlocks value and growth in today's digital market.

- + E-learning delivers cost-effective, scalable, and mobile-ready solutions, ensuring accessibility and collaboration across organizations of all sizes.
- + Continuous professional development is essential to address the widening global skills gap.
- + The global e-learning market is projected to surpass \$350 billion by 2025, fueled by rising adoption across industries.
- + Organizations are increasingly investing in digital training, with 78% planning to expand online learning budgets.
- + The shift to remote and hybrid work has accelerated corporate e-learning growth by 400%.

Themes We Focused on

- + Aviation Safety – Training modules to strengthen compliance, safety management, and maintenance standards.
- + Healthcare – Programs designed to enhance patient safety, regulatory adherence, and professional skills.
- + Industrial Safety – Interactive courses that drive workplace safety, risk prevention, and workforce readiness.
- + Human Resources – Learning solutions that build stronger HR practices, leadership, and employee engagement.
- + Customized Solutions – Tailored courses crafted to meet specific client needs with measurable impact.

E-Life: Where Learning Meets Transformation

- + Empowers professionals and organizations with future-ready skills
- + Transforms industries by blending innovation with continuous learning
- + Provides scalable, accessible, and mobile-first learning experiences
- + Bridges the global skills gap with impactful, customized training
- + Awards recognized certificates upon successful course completion

e-Life is an innovative e-learning platform that facilitates digital transformation by presenting an accessible, scalable, and comprehensive course library – encompassing diverse domains under one roof. Along with customized solutions, e-Life enables learners to upskill at their own pace and earn approved certification. Driven by intelligent automation, real-time data, and integrated analytics, it not only addresses the skills gap globally but also accelerates corporate growth in a market projected to eclipse \$350 billion by 2025.
